## RELEVANT EXPERIENCE

July 2020 – July 2021

- Project managed and delivered an in-house Shopify site that grossed over £60,000 in revenue within the year of my internship
- Performing UAT(User Acceptance Testing) with the business
- Working as part of the Northwest Europe IT Solutions team providing both first-line and second-line application support

## SKILLS

**Programming Languages:**

**Creativity:** Able to implement visually appealing and functional design elements.

**Debugging:** Proficient user of Chrome/firefox devtools for identifying bugs and Jira for reporting.

**Problem solving:** Skilled in bridging the gap between creative concepts from UX designers and practical front-end implementation.

## ABOUT ME

I am a self-taught web developer with a strong knowledge JavaScript. I feel in love with frontend development after seeing the endless possibilities at my disposal to create and interaction with the applications i created. I have utilised my JavaScript knowledge to build personal projects that has helped to enhance my programming ability. I learning React as i continue to develop my ability as a Frontend Developer.

## Notable Projects

**Freelance Website** - [www.samadjei.com](http://www.samadjei.com)

This was my first react project where i build a Jamstack website using Gatsby and Strapi CMS. I learnt a lot about React when completing this project, especially when it came to continuously deploying content via the webhooks.

**GitHub User Search App** - [Live Site](#)

**Tip Calculator** - [Live Site](#)

**PayAPI Website** - [Live Site](#)
